RESEARCH EXPERIENCE

Louisiana State University | Department of Biological Sciences

2023 –

PhD Candidate, Lab of Dr. Christine Lattin

Studied the neuroendocrine basis of neophobia in house sparrows. My work used hippocampal lesioning and pharmacological manipulations to test their effects on behavior.

Bowling Green State University | Department of Biological Sciences 2022*Master's Student, Lab of Dr. Paul Moore*Investigated how SSRIs affected serotonin reuptake and behavior in the invasive rusty crayfish (*Faxonius rusticus*).**Elizabethtown College | Department of Biology** 2016 – 2019*Research Assistant, Lab of Dr. Anya Goldina*Studied chemical communication in the invasive rusty crayfish (*Faxonius rusticus*).**Tufts University | Research Experience for Undergraduates Program** 2016*Research Assistant, Lab of Dr. Michael Romero*Studied how chronic and acute stress affected physiology in house sparrows (*Passer domesticus*), using bacteria-killing, uric acid, and radioimmunoassay.**Elizabethtown College | Department of Biology** 2015*Research Assistant, Lab of Dr. Diane Bridge*Identified *Hydra oligactis* collected from Lake Placida by extracting its DNA and amplifying it with PCR.
